Derby City Council

At Derby LIVE, we believe that theatre-going should be accessible to all, and have a strong commitment to making this happen. Please let us know if there's anything we can do to improve your experience with us.

British Sign Language (BSL) Interpreted Performances

Please let the Sales and Information Centre know where you would like to sit - directly in front of the signer or on the opposite side, looking across the stage/ action.

Audio Described Performances

Free touch tours take place 75 mins before audio described performances, with the chance to familiarise yourself with the set and costumes. Please pre-book your tour with the Sales and Information Centre in advance.

Relaxed Performances

Designed and adapted for customers with a wide range of disabilities and those on the autistic spectrum. They have a less formal, more supportive atmosphere in order to reduce anxiety levels.

Captioned Performances

Words appear on screens either side of the stage right as they are spoken, ideal for those who are deaf, hard of hearing or just like to read along.

Infra-red Hearing System

An infra-red sound system is available in all of our venues. Please let the Box Office know when you book, as the system only works in certain areas. Headsets and hearing aid attachments are available for your free use, just ask the Duty Manager.

Accessible Venues

Most public areas of Derby Arena are wheelchair accessible and have accessible toilets. Wheelchair spaces are available in all venues, please let the Sales and Information Centre know when you book.

Assistance Dogs

Assistance dogs are welcome at all venues. Please let the Sales and Information Centre know when you book or at least 24 hours before the performance.

Shadow Interpreted Performances

The traditional set up of sign-interpreted performances keeps interpreters off to one side of the stage and means that audience members who are hard of hearing, have to choose whether to watch the action on stage or the professional interpreter on the side.

For this reason, an alternative approach to sign language in the theatre is shadow interpreting, in which interpreters stay on the stage rather than off to the side. By incorporating interpreters into the performance itself, theatres aim to provide a more seamless experience for the entire audience.
